Bob,

I am the fleet manager for the Foley Police Department. We are expecting to receive 6 2022 Chevy Tahoes and 5 2022 Ford Explorers in the near future. I am looking to select someone to stripe our police vehicles starting with these 11 vehicles and continuing on for years to come. The person who did these for us in the past, is no longer in business.

I am attaching photos in this email to give you an idea of what the striping should look like when finished. The attachment will also have " The Forward City " emblem example that will go on both sides. The striping will need to be reflective.

If you are interested in our business, can you please work up two separate quotes, one quote for the 2022 Tahoe's and one quote for the Ford Explorer's, and email the quotes back to me? If you have any questions please let me know. Thanks in advance for your help.
