

PUBLIC STREET AND HIGHWAY LIGHTING

CLASSIFICATION	DATE APPROVED	EFFECTIVE DATE	REVISION	PAGE
"610"	12/21/2021	4/1/2022	Fourteenth	1 of 6

AVAILABILITY

This rate is available to any municipality in which the Utility operates the local electric distribution system or to Baldwin County or to the State of Alabama for service along any highway adjacent to an electric distribution system of the Utility.

APPLICABILITY

This rate is applicable to street or highway illumination whether by series, multiple or other street lighting circuits. Service hereunder shall be subject to the additional terms, conditions and adjustments set forth in Special Rules and Regulations of the Utility governing application of this rate.

CHARACTER OF SERVICE

Dusk to dawn service is covered by the charges set forth below, which also cover initial installation of overhead lines, standard street lighting fixtures of center span, mast arm or bracket types, and maintenance and lamp renewals subject, however, to the additional terms, conditions and charges set forth in Special Rules and Regulations of the Utility governing the application of this rate. The minimum rating of lamps served shall be 2,500 lumens.

PART I – UTILITY-OWNED FIXTURES

ANNUAL RATE

Subpart A – Applicable to installations prior to November 1, 1974:

1) Metal Pole Charges:

\$14.40 per metal pole used in lieu of a standard wooden pole; plus

CLASSIFICATION	DATE APPROVED	EFFECTIVE DATE	REVISION	PAGE
"610"	12/21/2021	4/1/2022	Fourteenth	2 of 6

2) Lamp Charges:

		Average kWh Per Month	Charge Per Lamp
2,500	Lumen Incandescent	63	\$ 21.00
7,000	Lumen Mercury Vapor	67	\$ 45.00
20,000	Lumen Mercury Vapor	150	\$ 105.00

Subpart B – Applicable to installations after November 1, 1974 and prior to July 1, 1989:

1) Circuit Charges:

50.0 cents per foot of underground cable owned and maintained by the Utility when the cable is not under pavement; plus

85.0 cents per foot of such cable when cable is under pavement; plus

2) Lamp Charges:

		Average kWh Per Month	Charge per Lamp
7,000	Lumen Mercury Vapor	67	\$ 56.00
20,000	Lumen Mercury Vapor	150	\$ 120.00
9,500	Lumen High Pressure Sodium	39	\$ 56.40
25,500	Lumen High Pressure Sodium	99	\$ 120.00
47,000	Lumen High Pressure Sodium	162	\$ 162.00

Subpart C – Applicable to installations after January 1, 2017:

1) Charge per Fixture:

Type	Wattage	Lumens	Pole	Installation (Per Pole)	Monthly Charge
Street	80	10,000	Existing	\$ 50.00	\$ 6.00
			Wood	\$ 100.00	\$ 8.50
Cobra	110	13,750	Existing	\$ 50.00	\$ 10.00
			Wood	\$ 100.00	\$ 12.50
			FG/AL Sgl	\$ 1,500.00	\$ 18.50
			FG/AL Dbl	\$ 1,500.00	\$ 28.50
Galleon	208	26,000	FG/AL Sgl	\$ 1,500.00	\$ 26.00
			FG/AL Dbl	\$ 1,500.00	\$ 41.00
Flood	120	15,000	Existing	\$ 50.00	\$ 10.50
			Wood	\$ 100.00	\$ 13.00
American Revolution (4 sided)	50	6,250	Straight Tapered	\$ 800.00	\$ 6.50
Arlington/Washington	90	11,250	Straight Tapered	\$ 1,000.00	\$ 13.50
			Fluted	\$ 1,500.00	\$ 13.50

PART II – CUSTOMER OWNED FIXTURES

MONTHLY RATE

9.25¢ per kWh for all kWh's consumed per lamp

PAYMENT

Bills for service rendered hereunder are payable on or before the past due date, which is intended to be no less than twenty (20) days from date the bill is rendered. Bills not paid within such period shall be considered as delinquent, and subject to service charges as set forth in the Utility's rules and regulations.

"610"	12/21/2021	4/1/2022	Fourteenth	4 of 6

TAX PROVISIONS

In the event any privilege, license, franchise, use, occupational, or other similar tax is imposed upon the Utility by any governmental authority, either Federal, State, or local, in excess of those in effect on October 1, 2005, there shall be added to the above rates and charges an amount calculated on a pro-rata basis sufficient to recover any such tax or taxes.

GENERAL

The amount calculated at the above rate will be increased or decreased under the provisions of the Utility's Rate "ECA" (Energy Cost Adjustment) by applying the effective Energy Cost Adjustment factor to the average kilowatt-hours consumed per lamp each month.

This rate schedule supersedes and replaces Rate Classification "610" Thirteenth Revised Sheet dated June 1, 2020, and applies to all billing rendered for Public Street and highway lighting on or after April 1, 2022, and shall continue from month to month until rescinded.

SPECIAL RULES GOVERNING THE APPLICATION OF

CLASSIFICATION "610"

PUBLIC STREET AND HIGHWAY LIGHTING

Part I – Utility-Owned Fixtures

1. Type of Lighting System:

The Utility shall determine the most economical type of system at each location, which may be for series or multiple lamps, or a combination of both types of lamps. Standard-type fixtures shall be used for all lamp installations.

2. Multiple Lamp Ratings:

PUBLIC STREET AND HIGHWAY LIGHTING

CLASSIFICATION	DATE APPROVED	EFFECTIVE DATE	REVISION	PAGE
"610"	12/21/2021	4/1/2022	Fourteenth	5 of 6

Whenever the Utility installs multiple lamps, it shall provide lamps which have approximately the same nominal rating by the manufacturer as the lamp lumens contracted for under the rate.

3. Special Equipment:

The Utility shall not be required to make additional investment in special fixtures, equipment or in underground wiring except under conditions mutually agreeable with the Customer and the Utility.

4. Underground Circuits:

For installations after October 1, 2013 the Utility will install, maintain, and retain ownership of any underground circuits for unmetered lights covered under this rate, according to the standard policies for such circuits. Installation charges for the underground circuits are not included in this rate, and will be determined separately. The Utility, at its discretion and upon request of the owner, may assume maintenance responsibilities for underground circuits supplying lights covered under this rate installed prior to October 1, 2013 if such circuits after inspection by the Utility are deemed to be installed according to the Utility's standards.

5. Lamp Removals:

All luminary removals, whether or not circuit or photo-electric controls are removed, will be credited to the Customer at the rates specified for such lamps under Part I.

6. Lamp Replacements:

In cases where the Customer desires to replace a luminary with one of comparable lumen rating or with one of increased lumen rating or, in such cases where a lamp is damaged beyond repair, either by accident, vandalism or any other cause beyond the Utility's control, the removed lamp will be credited to the Customer at the rate applicable thereto at the time of its removal, and the replacement lamp will be charged to the Customer at the rate for such lamp under Part I, Subpart C.

Part II – Customer Owned Fixtures:

1. All Customer-owned fixtures, including initial lamps, circuit breakers, fuses, relays, controls, wiring circuits, supporting poles and structures, and any other Customer-owned equipment, shall be installed and maintained by the Customer.
2. The Utility, upon request and at the expense of the Customer, will replace or repair such Customer-owned equipment or fixtures.
3. The Utility will furnish and install all lamp renewals after the initial lamps require replacement.
4. Lamp renewals and other maintenance performed by the Utility will be performed only during regular daytime working hours as soon as practicable after notification by the Customer of the necessity.
5. The Utility shall not be required to make additional investment in special equipment or in underground wiring except under conditions mutually agreeable with the Customer and the Utility.
