February 14, 2024

Dear City of Foley Mayor & Council,

Southside Baptist Church has plans to make an addition to our existing church building. This includes adding a handicapped accessible restroom and an expansion to our kitchen facility. The original church was built in 1962 and is currently zoned R1A - Residential Single Family. The church needs to apply to the Board of Adjustment and Appeals for a setback variance for this expansion.

We respectfully request that Council waive the Board of Adjustment & Appeals application fee along with reducing building permit fees to the minimum amount.

Sincerely,

Fred Cornish Sr.
