Subject: Capital Purchase requests for Council agenda

Wayne / Mike:

I have attached (2) Capital Purchase Request forms for the upcoming Council agenda. These are both budgeted purchases. The UTV is budgeted in the General Fund and is just under budget using the Sourcewell Contract. They are saying that they can get this delivered to us in a reasonable amount of time. The SUV is a Ford Expedition that is budgeted in the Fire Ad Valorem Fund and is under the State Bid Contract. I have confirmed that Stivers Ford actually has some new Ford fleet vehicles being delivered and this Expedition is available on their lot in Montgomery now. The government price concession from Ford has greatly decreased on all vehicles, so we will be over budget with equipment, but at least we have an opportunity to get a vehicle at the moment. Let me know if you have any questions. Thanks.
