This is currently on a trial basis and we are monitoring the use of the drive thru during these extended hours to see if it generates better customer convenience. Re: **River Trace Subdivision Ph 1 & 2** inspection
For Infrastructure Acceptance by the City of Foley

I have conducted an inspection and review of installed infrastructure of the above referenced subdivision and found that the infrastructure is in place and there are no deficiencies. Due to the extreme time lag in accepting this subdivision, the engineering department will generate the "Infrastructure Additions Due to Annexation, Subdivision Acceptance, Donations, ETC." form.

I can find no evidence that there was a maintenance bond and the property owners are the requesting party.

Regards,

John A. Gates, P.E.
