

Sponsors:

The South Baldwin Education Foundation is a vehicle for various individuals, companies, clubs and organizations that sponsor scholarships for higher education, to work together cooperatively, in a unified framework. The goal is to promote and encourage the expansion of financial aid to local students by providing an effective and simple process of administration of scholarship awards. This widespread community effort involves hundreds of volunteers annually. We are very thankful for each member and sponsor who unselfishly contributes money and effort to serving the educational needs of our community's youth.

If you are interested in becoming a sponsor, please contact the Scholarship coordinator for additional information.
