PROFESSIONAL SERVICES AGREEMENT

Parties:

This agreement, entered on this 24th day of September 2025, by and between:

Client: City of Foley Engineering Department
hereinafter called "Client"

and

Axis Engineering Group, LLC

Project Title and Location: Iberville Square Turn Lanes – Foley, Alabama

- Section of South Juniper Street

Work Discipline: Project Administration - Topographic Survey – Turn Lane Design and Construction Plans

Scope of Services:

Axis Engineering Group LLC agrees to provide services in exchange for compensation as follows: See attached scope of services. Any work above & beyond the scope of services (time permitting) an updated cost for the additional services needed can be provided. See fee schedule attached.

Client agrees to compensate Axis Engineering Group, LLC for such services as follows in accordance with the terms of this Agreement.

The Client acknowledges and agrees to the Scope of Services, Fee Schedule and the Terms and Conditions outlined on the attached sheets which are incorporated herein and made a part of the Agreement and apply to all services performed by Axis Engineering Group, LLC.

Project Scope Of Work:

Service 1 – Project Administration

- Attend project kick-off meeting and address project schedule, deliverable dates, and discuss any concerns about the project.
- Provide bi weekly reports/emails on project progress to ensure on time project schedule.
- Coordinate with utility companies as needed through project design phase.

Service 2 – Surveying Services

- Provide a topographic survey of the existing right-of-way and any adjacent property corners.
- Collect all pertinent data as it relates to the design included, but not limited to, roadway grades, roadside swale elevations, existing utility locations, drainage structures, tree locations, sign locations, etc.
- Establish temporary benchmarks (TBM's) to aid in future construction.

Service 3 – Engineering Services

- Prepare detailed engineering construction drawings of the proposed left turn lane and right turn extended radius for specified intersections.
- Establish horizontal alignment that follows center of existing right-of-way, based on the information provided by City of Foley.
- Prepare plan and profiles for new roadway lanes and proposed drainage structure changes.
- Coordinate with utilities companies for possible relocation of existing facilities.
- Create surface model of the proposed roadway changes.

Summary and Order of Task and Cost

Task 1.	Project Administration	\$5,000
Task 2.	Topographic Survey	\$9,000
Task 3.	Construction Drawings	\$42,000
Task 4.	Additional Services – If needed	Hourly

Total: \$56,000

Major milestones and expectations of client invoicing are as follows:

<u>Milestone Description</u>	<u>Fee Description Due</u>
