A tradition of innovation since 1966

model TC-12

[tree chipper]

DURATECH®

DURATECH....*Clearing the way for a better tomorrow.*

DuraTech has harnessed the grinding technology of its massive tub and horizontal grinders and implemented it in the new TC-12 Tree Chipper. With a 122 hp (91 kw) CAT C4.4 diesel engine and PT-Tech clutch, the powerful TC-12 can grind trees and limbs up to 12 inches in diameter. The TC-12 features a spring loaded feed wheel with adjustable down pressure, an optional height sensor that automatically adjusts the feed roller to material size, an optional hydraulic gathering winch, and innovative hopper safety bars with easy and instant feed wheel shut off. Available with a pintle or ball hitch, this heavy duty chipper is compact enough to easily tow anywhere.
