Foley, AL 36535

Re: Nexedge Channel Relocation

1. Relocate one of the five repeaters from the Magnolia Springs tower location to the Seminole tower location.
 - Integrate transmitter/receiver into the existing site.
 - Estimate Labor and Materials \$1,520.00.

2. FCC work required to reassign existing frequencies or generate new frequencies for the continued use of the Magnolia Springs system and relocation of one of the five channels to Seminole tower location.
 - Estimate of FCC application work and Fees \$2,000.00
