Dear Ms. Southern:

We are pleased to submit an updated Estimate for Supplement #16 and for republishing the Code to the 8 1/2 x 11 inch size page. Supplement No. 16 The supplementation process includes incorporating and indexing the ordinances, updating the Code tables and the Checklist of Up-to-Date Pages, creating an instruction sheet and supplement history table, and printing 10 copies of the Supplement for insertion into the Code.

*Discounted rate for Supplement #16 only

**This does NOT include the annual Code on the Internet fee of \$700

Please keep in mind that the Supplement estimate is an approximation. It is virtually impossible to determine the number of pages raw ordinances will generate until they are editorially prepared and formatted and it is particularly difficult to ascertain the extent of the indexing that will be required. We will invoice for the actual number of Supplement pages; shipping charges and applicable sales taxes will be added to the invoice.

Republication. We recommend a republication at this time because the Code has 15 supplements and is still in the 6x9 format. In addition to updating the text, Index and tables of the Code to reflect the new ordinances, the preliminary pages of the Code will be appropriately updated. The updated volume will be repaginated, eliminating short pages with blank backs and supplement number designations from the volume. Proofs will be provided for review prior to printing the new Code volumes. The Code then starts over with Supplement No. 1. This will also allow the City to reduce the size of the Code volume by updating to an 8 1/2 x 11 inch page.

The republication project does not include reorganizing Code content, renumbering Code chapters or proofreading unamended Code text. Code pages that are not impacted by the inclusion of an ordinance or by the inclusion of a current state law reference (see below) will be printed with no substantive changes.

State Law References. Since state statutes undergo constant revision, the state law citations in the footnotes of your Code become out-of-date simply through the passage of time. One of our staff attorneys can perform the research required to identify and update footnote state law references. This process will not identify conflicts and inconsistencies between the Code and state statutes, nor within the Code itself, but will simply ensure that the state law references in footnotes are accurate and up-to-date. We will not review the internal state law references within sections. We would recommend you review those and advise us of the changes. You can also choose to remove all state law references in footnotes or leave them as is. Please select one of these options on our quotation sheet.

Electronic Media. Additionally, the Code will be furnished in any electronic medium and format (Internet, HTML, WORD (DOCX), PDF, or integrated with search engine, etc.) selected by the City.

Additional electronic media can be ordered anytime throughout the life of the contract.

Distribution Services. With Municode as Total Code Administrator (TCA), we provide inventory for sale (Codes and/or reprint pamphlets) and we provide all services for outside subscribers. The TCA service is provided at no cost to you and totally at our expense.

Supplement Service. Supplementation of the Code will resume upon shipment of the new volume. In addition to providing traditional supplements, we offer an alternative supplementation option to those who receive their Code electronically – electronic updates provide current electronic data without preparing paper supplements.

We also offer a variety of specific publication schedules – a specific supplement publication schedule helps to ensure that supplements are provided regularly and it simplifies the transmission of ordinances. With a schedule in place, ordinances can be sent as enacted and we hold them in our files until it is time to proceed with work on the next scheduled supplement.

Our records currently reflect no set schedule for the publication of supplements to the Foley, AL Code. The schedule can be adjusted, as needed, to reflect current needs.

OrdLink. Municode can post the ordinances passed between Printed Supplements or Electronic Updates on our website. OrdLink highlights the Code's Table of Contents and show the changed section, chapter and title. A link is created from the amended section in the Code text to the ordinance(s) and from the ordinance table to the amended text sections of the Code. Once the posted ordinances are incorporated into the Code, they are removed from the website. We recommend the City send legislation in an editable format via email for inclusion in the Code and posting for the OrdLink system. No setup fee is required.

OrdBank. Is a permanent collection of all ordinances sent to Municode, listed chronologically and organized by Supplement number, presented online with number, date and a brief description. Each ordinance in the list is linked to the actual ordinance as enacted, and from the History Note of the section derived from the ordinance.

CodeBank. Is a code management tool available on municode.com that allows anyone to easily recreate a Code as *it existed after a previous update or Supplement*. Previous versions are accessible from a drop down box that appears with the on-line Code and when a previous version is selected, users are alerted that they are looking at an older version of the Code. The historic version of the Code is fully searchable and printable, making the task of researching past versions of your Code more efficient

A republication quotation sheet is provided for your consideration – payment for a republication project may be budgeted over two fiscal years, if needed.

If you have questions, or should you desire additional information, contact me via e-mail at info@municode.com.

Municode values its relationship with the City and appreciates every opportunity to be of service.

Sincerely,

Steffanie Rasmussen
Assistant Vice President – Sales
