Good afternoon Peter. You helped me out on our other truck and now I need some help on the above. We just received a newer model truck from the City of Fairhope as they were going to declare surplus. We have one that has been in service since 1999 and it has come to the end of its life cycle. Our Finance Department will not sign off on us declaring the older truck surplus unless we can provide them some sort of documentation that we can declare it surplus for sale and not have to return to any govt. agency. Any assistance on this matter will be much appreciated. Thank you.

Randy,

I apologize for the delay in getting back with you about this. Regarding that 2 1/2 ton truck, if it is DEMIL A and you have retained it for more than 1 year (or 14 years in this case), your department may dispose of that property as it sees fit. If the truck is sold, the proceeds must go to the department's operating funds. If you have any questions on this or need more information, please do not hesitate to let me know.

Respectfully,

Peter Gentry
