

The **HammerHead Service-30** is a very popular choice for pool professionals nationwide. Ready to mount on your truck or trailer, the Service-30 can cut your cleaning time as much as 50 percent. It's equipped with a 60 foot power cord and a 30 inch wide vacuum head. Draws 23 amps.

Standard features include:

- Lightweight powder coated aluminum frame
- Balanced and maneuverable even when loaded
- Sealed bearing mag wheels
- Non-marking tires with heavy-duty tubes
- Stainless steel axle hardware
- Large marine battery box
- Frame mounted soap bottle
- Weatherproof marine switch
- Heavy-duty roto-molded accessory tray
- Internally pressurized 30 lb thrust motor
- 60 feet of floating power cord
- 30 inch wide vacuum head
- Stainless steel pole swivel
- Long wearing head wheels
- Extra fine large capacity debris bag
- Superfine large capacity debris bag

The advantages to using the HammerHead system are many:

- Save time every day by increasing your speed and efficiency.
- Increase your workload without working longer hours.
- Enjoy shorter workdays by working faster.
- Keep heavy debris out of the pool's filter system.
- Clean up after storms, parties, landscaping, and construction.
- Set up new pools that have no electricity or water service.

This unit is for Service Professionals and includes trailer and truck mount for easy transport. Service units include HammerHead's original tilt-on, tilt-off mount system for truck or trailer. Simply wheel the cart up to the mount, tilt up, latch down the safety clamp and set the safety pin. The unit is safely and securely stored for transport to your next pool, near or far.

HammerHead is backed by a one-year limited warranty and a complete repair service.
