Item	Price
<b>collectiveFleet™ 6</b>	<b>\$11,500.00</b>

**SKU- CF6:**

collectiveFleet is an intuitive, easy-to-use fleet and asset management system that will help improve productivity in your operation. The data gained will help you make more informed decisions, provide better information to supervisors, and make your job easier.

Your system will include:

- \* 5 concurrent users
- \* 1 year of technical support and software updates

The standard features of collectiveFleet include:

- \* Vehicle and equipment management
- \* Preventive maintenance scheduling
- \* Automatic email notifications of scheduled items coming and past due
- \* Equipment depreciation and budgeting
- \* Work orders, simple mechanic interface, and estimates
- \* Quick access to repair histories
- \* Parts inventory management
- \* Built-in barcoding capability
- \* Mission control dashboard
- \* Comprehensive reporting (including charts and graphs)
- Additional concurrent users available for \$1,500 each

<b>Training via Web Conference</b>	<b>\$2,500.00</b>
------------------------------------	-------------------

**SKU-TR002**

- (5) Two hour training session via GoToMeeting.
- Limit two consecutive sessions per day.

<b>Tier Four Import</b>	<b>\$750.00</b>
-------------------------	-----------------

**SKU-SDI-411**

Do it yourself, with a little help. Collective Data will provide you with templates for equipment, employees and parts.

Includes:

1. Templates for equipment, employees, and parts
2. Two hours of import training with a Collective Data trainer to import data and review data failure cleanup needed

\*\*\*Client responsible for data cleanup after import

Need Collective Data to do the import for you? Additional import services are available, ask your sales representative for pricing and details.

**Your Investment:            \$14,750.00**
