Subject: Bio

My name is Pam Engel and I am interested in becoming a member of the Revitalization & Beautification advisory board for the City of Foley. I have resided in Foley most of my life. I graduated from Foley high school with the bicentennial class of 1976. I attended Faulkner and received an Associate in Arts degree and later attended the University of Mobile where I received a BS in nursing. I worked many years in financial institutions and my last 26 years as a nurse in many fields of practice. I recently retired and plan to spend time with our four grandchildren. I will continue my love of all varieties of gardening as well as my floral designs for weddings. I love to craft, read and socialize.
