Service that Works™

CONDITIONS OF SALE: Customer acknowledges and agrees as follows: 1. The goods ordered herein will be shipped F.O.B. by Winzer Corporation from its warehouse in Dallas, Texas, unless otherwise indicated. 2. The customer owes and will pay Winzer Corporation in accordance with the terms of the invoice, the full invoice amount for the goods indicated herein, plus all customs, freight and insurance charges for shipment, to the extent not included in the invoice amount. Partial shipments are permitted at Winzer Corporation's discretion. 3. The customer bears all risks (including all risk of damage, loss, or theft) after the goods are shipped F.O.B. by Winzer Corporation. All returns of goods are subject to Winzer Corporation's RETURNS POLICY. A copy will be furnished, if requested. The customer has considered the use to which any of the goods may be put and, in the case of any screw, nut, bolt or other fastener, has determined and ordered the appropriate grade and strength thereof for customer's intended use. 4. The customer acknowledges that the sole warranty with respect to the goods sold by Winzer Corporation is as stated or available upon request.

Robinair Cooltech 34788 R-134a A/C Recover, Recycle, Recharge and Evacuate Unit

Mfr: Robinair
Part #: ROB34788

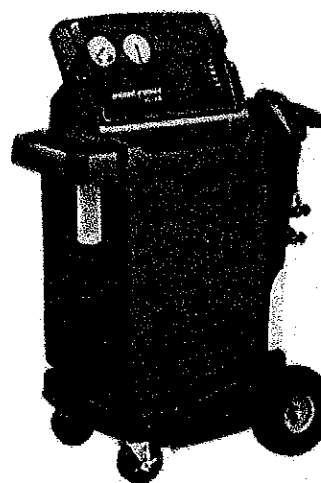

\$4295.00

Features and Benefits

- Complies With Newest Standard SAE J2788- which requires 95% refrigerant recovery - 20% more than the SAE J2210 standard (save inventory dollars)
- Fully Automatic Function- lets you program unit push a button walk away, the Cool Tech 34788 will recover, vacuum, leak test, charge automatically. The unit also performs Automatic Air Purge and Automatic Oil Drain
- Vacuum Only Functions and Vacuum Leak Test- allows for Pause to Repair and Repair Verification (no leaks)
- Automatic Refrigerant Refill- never stop in the middle of a job to change refrigerant tanks, unit maintains user selectable amount of refrigerant in an internal vessel and signals when supply tank needs to be changed.
- SD Card Slot for Updates and Future Use-Vehicle Database Software Option Available mid 2007 - Refrigerant and Oil Capacities by Year, Make, Model

Combines simple operation with superior accuracy. The Cool-Tech 34788 recovers, recycles, evacuates, leak tests, and recharges R-134a quickly and accurately. Automatic operation means less attention is needed!

- Automatic Function — With this new option, you can program the unit to recover, vacuum, leak test, charge, and then walk away without having to operate panel valves.
- Vacuum Leak Test — Will monitor the vacuum level after an evacuation, and inform the technician of a possible leak in the vehicle's A/C system.
- Automatic Refrigerant Refill — With this latest advance, you never have to stop in the middle of a job to change refrigerant tanks. The unit maintains a user selectable amount of refrigerant in an internal vessel, and signals when it's time to change the supply tank, so no monitoring is required.
- Automatic Air Purge — Eliminates damaging air without any monitoring of gauges or opening of valves.
- Automatic Oil Drain — The unit automatically drains system oil captured during recovery, and the display reminds you to empty the bottle. Graduations on the container clearly show you how much oil needs to be replaced.
- Refrigerant Charging — Has never been this easy. Select a charge mode from either the high side, low side, or both. Accuracy features eliminate guesswork!
- Refrigerant Management Systems—New and improved, system displays refrigerant use and monitors remaining filter life. Prompts appear when 1/3 of filter life remains.
