IFSC Official Climbing Wall Supplier
USAC Official Climbing Wall Supplier

STANDARD FEATURES

- Composite material allows expansion / contraction unlike GFRC, which is more susceptible to cracking and surface polishing.
- EP FreeForm top coat is proven for over 25 years
- Real rock texture, allowing hands and tennis shoes to grip effectively, designed features let water run off and minimize pooling
- No bolt-on holds to minimize maintenance, also no holes which can attract insect nesting and create finger traps
- Integral base flange enables simple fixing options
- Available in natural red or grey tones
