

6-12-2013

On June 22nd 2013, we will be having "Community Unity Day" in Arrowville Park. This event will consist of Basketball Tournaments, as well as, youth events and more. We are asking the City Recreation to please provide garbage cans, benches, and swing seats for the kids swing. We are also asking if possible that the city provide extra life guards and police officers for this event. It has been brought to the Communities attention that the Parks restroom is out of order and also not safe to use. If we could have our cities support in helping this event bring about a positive change in these local Communities it would be greatly appreciated.

Thank you
