To: Daisha Barnes <dbarnes@cityoffoley.org>, Chad Watkins <cwatkins@was-design.com>, Bryan Harrell <bharrell@was-design.com>

Daisha here is our light price and monthly fee.

Chad and Bryan, attached is the cad file for sidewalk overlay.

Jeff

Jeff,

Here attached are the CAD files for the lighting layouts we discussed.

From our conversation, you need a cost for phase1 (the northern most light in the A & B plan) and that the underground feeding over to the pole is covered on a separate project at the park that you and Jon are working on.

The installation cost for this light location (Double Galleon Fixtures mounted on Black AL Pole) will be **\$1,500.00** with a monthly fee billed at **\$41.00**.

Also included is removing the old poles, overhead line across the park, along with 6 Flood lights currently being billed for (\$63).

I will get the pricing for the remaining phases (two light locations) by the end of this week.

Please let me know if you have any questions or need anything further.

Thanks,

**J.D. George** | *Engineer Tech III*
