Megan,

Could I get a written quote for the installation and monthly charge for the alley street light? I have to take this to Council for approval then I'll send you the signed form.

Thank you,

Donna Poole

Good Morning Chad,

The new street light came up this morning in the Main Street meeting, have we evaluated that request and taken it to Council?

Please let me know and I will advise them where we are.

Thank You! Have a Great Day!!!

You are welcome Brenda.

Donna, the request came from Warren Averitt (who took the space that the Chamber used to be in). Their employees park in the lot by your building to leave the 98 spaces open for clients/customers. So they walk down the alley to their cars in the evening. When staff work late, they are uncomfortable walking the alley because of its relative darkness.

I understand. The request went to Mainstreet via a downtown business. I want it to follow the process for street light requests which is the request going to engineering, engineering agreeing with the need, and then bringing it to the council.

I haven't gotten a request for a light there, but yes we do take these to Council.

Donna/Chad,

I believe that this is a street light request for the alley between 98 and Jessamine. If I remember correctly, this was a concern raised by the accounting firm to Mainstreet about the alley being dark when they leave and walk to their car up to the parking lot near yalls building. Don't we normally bring street light requests to the council through Engineering?

Mike
