Subject: Temporary Part Time Staff
Date: Monday, October 13, 2014 11:18:44 AM

With all the events approaching, I am in desperate need for help at the parks. I currently have \$2000 in intern personnel budgeted. I also have \$12,000 in my habitat management budget. This temporary staff would be a parks ranger with degrees in habitat management. Therefore, he could perform the duties that are normally contracted out of that budget. The needs include assisting us with preparations for the Powerman, Graham Creek Shootout (Disc Golf Tournament) and archery ranges and lanes. This winter, we will need to develop and maintain all the ranges and lanes to host the February 2016 ASA Archery Competition. Also he can treat for invasive plants and assist with the prescribed burn. Can I move \$7000 from habitat management to personnel to handle all the needs? I would need him to start either November 4 or 18 in order to prepare for the Powerman.
