I apologize for the delay in responding. I checked with both the Electric and Cable groups – we don't have any conflicts with this vacation of easement. Please let me know if there are any other questions regarding electric or cable.

Miriam,

We have a 1" water service that runs from Chicago Street to the back side of where the old Check Cashing building was (or is). This may be on the same parcel the city has purchased. If the service is active, we'll need some type of easement. No sewer or gas runs through there. I'm forwarding this to the electric/cable to see if they have anything in the alley you want to vacate.

If you have any other questions, please let me know.
