Hi Vickie, If we can add this on to the agenda it would be much appreciated. Thank you.

Gulf shores FFA would like to have a car wash at the farmers market Saturday May 10th from 10:00 - 1:00. The location will be in the north end parking area which will be designated with cones. The money raised will assist in the funding of their state convention and competition trip for overnight traveling expenses. This FFA group currently grows and sells plants at the farmers market. They also support the market by supplying and installing plants and mulch for flower beds at the market. They are an active group of high school students that work well with the market to achieve its mission.
