WHY THESE TWO ORGANIZATIONS?

The scourge of domestic violence and child abuse which scars our community has far reaching effects on all of us. We have two organizations that help to aid those affected and victimized by violence in the home. CARE HOUSE provides assistance and services to victims of child abuse as well as supports law enforcement with the detection and prosecution of offenders that abuse children. THE LIGHT HOUSE provides assistance and services to victims and children who have been victimized by domestic violence and most importantly provides victims with safe shelter from the abuser. Both of these organizations receive funding from other sources, however those resources are not always enough or reliable. Here in Alabama we suffered through a period where the resources were not there, and there was a break in those much needed services in 2014. Our local shelters and victim's advocacy providers need our local support.

As a community, we believe that we can make a difference, just as THE LIGHT HOUSE and CARE HOUSE makes a difference in the lives of these children and families. Let's get involved and make a difference in our community.
