Sorry, this needs to be amended.

Jeff, the estimate for the intersection street lighting for the below description will be as follows :

Upgrade street lighting at intersection or CO RD 65 and Airport Rd. Replace 75w streetlight on pole 59091 with cobra head and add additional cobra head on pole 59092. To be added to the City of Foley’s typical street lighting account for billing.

Install (2) 110w COBRA HEAD Lights on 12 FT Arms on poles 59091 and 59092 - \$50.00 ea

Monthly rate for COBRA HEAD Lights on existing wood poles - \$10.00 ea

Remove monthly rate for (1) 75w street light on wood pole 59091 – (\$6.00) ea

Thanks,

Jon Harrison | *Electric Engineering Dept*
