To Whom it may concern,

Solar Lighting International is the manufacturer of the X-35, Stealth, and Stealth II series solar street lighting systems. We sell through wholesale distribution channels such as CED, Grainger, and Border States Electric. We also sell directly for sole source purchasing by providing special direct pricing for Federal, State, and Local government agencies. Solar Lighting International is a buy American compliant US manufacturer providing the highest quality solar lighting systems available.

Sincerely,

Dan N Whigham

President
