Environmental Manager Leslie Gahagan reported to the Council that one of the objectives for the Bon Secour Watershed Management plan is to reduce the liter. The ditch running under Cedar Street has been identified as the worst source of liter. The trash trap will rise and fall with the water level. Mrs. Gahagan reported that the contract would be for one year and would include maintenance. The contract total would be \$14,000.00 with \$5,000.00 reimbursement.
