Good morning Wes,

Would you please forward this message to John Harrison? I don't believe I've met him yet and do not have his email address. Mr. Floyd Anderson reached out to City staff requesting a light be added to an existing wooden pole #19075 near his home at 525 Hamilton BLVD. It looks like all primary service is overhead along that street and some poles have lights, but the pole just west of Mr. Anderson's driveway does not have a light and he's requesting one. We defer to Riviera staff's recommendation for a light to be added in this area but for the sake of simplicity and to match existing, a possible easily solution is to add a light similar to the light that is already on nearby pole # 19138 - a photo of pole 191038 and a zoomed in photo of the 48 LED lamp and mast arm that is on the pole is attached.

If Riviera would provide pricing and monthly cost of billing to add this light, City staff will evaluate for City Council approval.

thank you and have a great weekend,

J. Buford King

Good morning Ladies,

FYI from Riviera Utilities - this was another citizen request to add a street light. Because it's adding a light to an existing pole, the install cost is only \$50.00 and monthly cost is \$6.00 per month. Would this scenario require council approval?

For the sake of simplicity, I'll find out of the \$50.00 install cost could be a one-time added cost on the power bill for that account.

thank you, Buford

Good afternoon Buford,

The City paid-for roadway lights are typically 75w. Not sure why the others down the road are 48w. They probably never got upgraded once RU started getting the 75w roadway lights – not sure.

For consistency, I'd propose installing the typical 75w roadway light on pole 19075 if the City will be paying to add the street lighting. We will get the fixtures on others along the street upgraded to 75w as well.

Being there's a transformer on pole 19075, the typical install rate of \$50 will apply for the 75w roadway light and it will be billed at a rate of \$6/month.

Let me know when it is approved by Council and we will get it added.

Thanks,

**Jon Harrison | Electric Engineering Tech III**

Jon, will you send Buford the pricing for the install and the monthly charge.

Thanks,

WES
