Hi Vickey,

I would like to have on work session and discussion item regarding the ongoing Streetscape project. Can you place a streetscape discussion item on work session for me? It will not need to be on the council meeting because we are not going to be requesting them to take any action. Effectively we will give them an update on current status, and then present to them options that we are looking at for streetscape work for FY14 and FY15 to gauge their opinion of how to prioritize some of these future components.

Suzanne has a spreadsheet that we will likely hand out, and we will have 4 pdfs that I will want to put on the screen for the discussion.

Sandra/Suzanne, the 4 pdfs that I am thinking of are the 3 conceptual designs from Chad, and then our original pdf of the streetscape project that highlights the components by the phases. We can start with the original pdf to preface the discussion regarding accomplishments to date, and then get into future phases using Chads pdfs.

Mike

All,

Can someone send me a copy of the PDF's for our files for the agenda?

This will be included as backup to the discussion item. Thank you.
