They do not have a static IP now, so I would say no on that. Below is what we have always used. For such limited use I would think it would be more than sufficient. It is what we have at our Police Precinct (4 users and VoIP phones), North Welcome Center, and Fire Station 2.

The DSL with speeds up to 8.0MBPS / 768 KBPS costs \$67.44 per month with a \$59.00 installation fee.

If you were to ask Clint, he might want more, but in my opinion 8 MBPS is reasonable for two computers on a webbased system.

$$\begin{array}{r} 67.44(4) = \$472.08 \\ 59.00 \\ \hline \$531.08 \end{array}$$

What do you recommend on speed and not sure of the answer on the static IP address...will that be needed?

Jessica,

Good morning.

We have upgraded our DSL platform to better serve our customers. Pricing and speeds vary and now our Clients choose what prices and speeds best fits their needs. All choices are based on Month to Month Pricing. Please allow 7-10 Business days for installation.

The DSL with speeds up to 8.0MBPS / 768 KBPS costs \$67.44 per month with a \$59.00 installation fee.

The Bonded DSL product with speeds up to 15.0 MBPS / 1.5 MBPS costs \$107.44 per month with a \$59.00 installation fee

The Bonded DSL product with speeds up to 20.0 MBPS / 2.0 MBPS costs \$192.44 per month with a \$59.00 installation fee

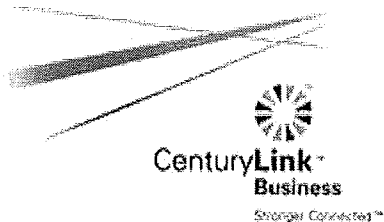

The Bonded DSL product with speeds up to 25.0 MBPS / 2.0 MBPS costs \$242.44 per month with a \$59.00 installation fee

If Static I P Address are needed, add \$10.00 each per month.

Let me know and I'll start the ordering process.

Warm Regards,

Paul D. Cope

Paul,

Can you provide a quote for DSL to be installed at 230 E Orange Ave? We already have phone/fax service there. Please include approximately how long it would take to have it running once we give you approval. Would there be a service contract attached to the install and if so, how long?

Thanks,

Jessica Middleton
