Wayne are you ok with these two? On the Hickory street item, obviously this will put us above our \$500k budget for repaving but we do say a substantial amount on the cost of that repaving via the county doing the work. Also, I indicated to Chad that I will likely drop our projected re-paving amount (which currently is projected at \$1m) by this \$94k overage to get us in line with our multi year projections.

Hi Wayne,

attached are two requests to add to the agenda. One is regarding the memorializing of the Hickory street repaving that the county completed. That project came in at \$94k. Our quote to complete had the county not done it was around \$140k I believe, so doing it through the county was a big dollar savings for us.

The other is a request to go ahead and replace to front of the Hamburg building roof with a metal roof like what is on the rest of it. This ends the water infiltration on the structure and Chuck has the metal ok'd by the historic board.

Are you ok with these two going on the agenda?

Mike
