

Single Project Agreement General Terms and Conditions

This Agreement is made by and between Thompson Engineering, Inc. (hereinafter Thompson Engineering) and the undersigned Client ("referred to herein as the "Client"). In consideration of the mutual covenants to be performed by the parties pursuant to this Agreement, each party hereby represents warrants and agrees as follows:

1. SCOPE OF WORK

Thompson Engineering shall perform such services as are described in this contract and as described in **Exhibit A** (the "Work").

2. INVOICES

The Client shall pay **Thompson Engineering** for the Work performed under this Agreement a sum to be calculated as described on Exhibit A or, if no such description is provided or any portion of the Work is not specifically provided for in said description, at the rates shown on **Thompson Engineering's** standard fee schedules which are in effect as of the time of execution hereof, or as may be otherwise specifically described herein. **Thompson Engineering** will submit invoices to Client no more than monthly and a final bill upon completion of the Work. Invoice will show charges for different personnel and expense classifications. A more detailed separation of charges and back-up data will be provided at Client's request. Payment is due upon presentation of invoice and is past due thirty (30) days from invoice date. Client shall pay a finance charge of one and one-half percent (1 ½ %) per month, or the maximum rate allowed by law, on past due accounts.

In the event this agreement is terminated before the completion of all services, unless **Thompson Engineering** is responsible for such termination, Client agrees to release **Thompson Engineering** from all liability for services performed. In the event all or any portion of the services by **Thompson Engineering** are suspended, abandoned, or otherwise terminated, Client shall pay **Thompson Engineering** all fees and charges for services provided prior to termination. If **Thompson Engineering's** services are suspended and restarted, **Thompson Engineering** will be entitled to additional compensation for extra services pursuant to the provisions of paragraph 2 of this agreement.

Client agrees that if it requests services not specified in the scope of services described in this agreement, Client will pay for all such additional services as extra services, in accordance with **Thompson Engineering's** usual and customary billing rates. If any staking or monuments are damaged, removed or destroyed by anyone other than **Thompson Engineering**, the entire cost of new staking or monumentation shall be paid for by Client as extra services in accordance with section 2.

If **Thompson Engineering** personnel are called or subpoenaed for depositions, examinations, or court appearances in any dispute arising out of any project on which Work was performed, **Thompson Engineering** shall be reimbursed on a time and material basis in accordance with **Thompson Engineering's** then current, standard billing rates for such matters, including all out-of-pocket costs incurred in connection with such matters.

3. RIGHT OF ENTRY

The Client will provide for right of entry of **Thompson Engineering** personnel and all necessary equipment, in order to complete the Work.

While **Thompson Engineering** will take all reasonable precautions to minimize any damage to Client's property, it is understood by the Client that in the normal course of Work some damage may occur, the correction of which shall not be **Thompson Engineering's** responsibility.

4. UTILITIES

In the execution of its Work, **Thompson Engineering** will take all reasonable precautions to avoid damage or injury to subterranean structures or utilities. The Client agrees to hold **Thompson Engineering** harmless for any damages to subterranean structures or utilities which are not called to **Thompson Engineering's** attention and correctly shown on the plans furnished by the Client.

If field services (i.e. survey, geotechnical) services are included in the scope of work, **Thompson Engineering** is not responsible for any determination or location of any underground conditions not visible and obvious by inspection of the premises, including, but not limited to, soils, geological conditions, physical devices and facilities, pipelines or buried cables unless specifically included in writing in this agreement, and shall not be responsible for any liability that may arise out of the making of or failure to make such determination or location of any subsurface condition. Client acknowledges that the services performed pursuant to this agreement are based upon field and other conditions existing at the time these services were performed. Client further acknowledges that field and other conditions may change at any time, and clarification, adjustments, modifications and other changes may be necessary to reflect changed field or other conditions. Such clarifications, adjustments, modifications and other changes, shall be paid for by Client as extra services in accordance with section 2

5. SAMPLES

Thompson Engineering will retain all samples for thirty (30) days. Further storage or transfer of samples can be made at Client's expense upon written request.

6. OWNERSHIP OF DOCUMENTS

All reports, boring logs, field data, field notes, laboratory test data, calculations, estimates and other documents prepared by **Thompson Engineering**, as instruments of service, shall remain the property of **Thompson Engineering**. Client agrees that all reports and other work furnished to the Client or his agents, which are not paid for, will be returned upon demand and will not be used by the Client for any purpose whatsoever.

Thompson Engineering will retain all pertinent records relating to the services performed for a period of five (5) years following submission of the report, during which period the records will be made available to the Client at all reasonable times.

All documents are for the exclusive use and benefit of the Client only. Others who use the documents do so at their own peril. **Thompson Engineering** consents that its information and reports may be furnished to and used by others participating in the financing

Single Project Agreement General Terms and Conditions

and/or development of the project (and for reports involving real property transactions, other parties of the transaction), but only in the same manner and extent as if such others were the addressee and the Client. The terms, conditions, and limitations of liability contained in the Agreement shall apply to others to whom Client furnishes such information and reports. No one other than the Client is authorized to rely, in any way, on any information or reports issued pursuant to this Agreement. Client further agrees that final plats, specifications, drawings, reports or other documents are for the exclusive use of Client and may be used by Client only for the project described in this agreement. Such final plats, specifications, drawings, reports or other documents may not be changed or used on a different project without written consent of **Thompson Engineering**.

7. DISPUTES

In the event that a dispute should arise relating to the obligations of the parties under this Agreement, the prevailing party shall be entitled to recover all reasonable costs incurred in connection with such dispute, including staff time, court costs, attorney's fees and other related expenses.

8. PROFESSIONAL RESPONSIBILITY

Thompson Engineering represents that the Work shall be performed in a manner consistent with that level of care and skill ordinarily exercised by other professionals under similar circumstances at the time services are performed. No other representation to the Client, expressed or implied, and no warranty or guarantee is included or intended hereunder, or in any work performed under this Agreement.

Client recognizes that subsurface conditions may vary from those encountered at the location where borings, surveys, or explorations are made by **Thompson Engineering** and that the data interpretations and recommendations of **Thompson Engineering's** personnel are based solely on the information available to them. **Thompson Engineering** will be responsible for those data interpretations, and recommendations, but shall not be responsible for the interpretation by others of the information developed.

9. LIMITATION OF LIABILITY

A. This Agreement shall exclude all losses of all types including but not limited to property damage, bodily injury, third party liability or any other claim, cost or expense directly or indirectly arising out of, resulting from, or relating to mold, mildew, fungus, spores or other microorganisms of any type, nature, or description or any by-product thereof including but not limited to any substance whose presence poses an actual or potential threat to human health.

B. For claims not excluded by Paragraph A, the Client agrees to limit **Thompson Engineering's** liability to the Client for any and all claims, losses, costs, or damages whatsoever on any project arising from this Agreement and/or performance of the work by **Thompson Engineering**, such that the total aggregate liability of **Thompson Engineering** to the Client shall not exceed \$50,000 or **Thompson Engineering's** total fee for the services rendered on the project, whichever is less. The Client further agrees to require of any contractor and subcontractors an identical limitation of liability to **Thompson Engineering**, which liability may arise on account of **Thompson Engineering's** performance of services or its acts, errors and omissions.

As used in this article 9, the term **Thompson Engineering** shall mean to include any parent, subsidiary or affiliated companies of **Thompson Engineering** and any directors, officers and employees of any of the same.

10. INSURANCE

Thompson Engineering represents and warrants that it and its agents, staff and consultants employed by it is and are protected by worker's compensation insurance and that it has such coverage under public liability and property damage insurance policies which **Thompson Engineering** deems to be adequate. Certificates for all such policies of insurance shall be provided to Client upon request in writing. **Thompson Engineering** shall not be responsible for any loss, damage or liability arising from any acts by Client, its agents, staff or other consultants employed by Client.

11. INDEMNIFICATION

The Client shall indemnify and hold **Thompson Engineering** harmless from and against any and all losses, claims (including third party claims), damages, judgments, fees, fines, penalties and other amounts (including, without limitation, any with respect to sickness, bodily injury, wrongful death and property damage), including attorneys fees and court costs, arising directly or indirectly out of or alleged to have arisen out of the performance of Work under this Agreement or any breach by Client of its obligations hereunder, which indemnity shall not be limited by reason of the existence or nonexistence of any insurance.

As used in this paragraph, the term **Thompson Engineering** shall mean to include any parent, subsidiary or affiliated companies of **Thompson Engineering** and any directors, officers and employees of any of the same.

12. ASSIGNS

Neither the Client nor **Thompson Engineering** may delegate, assign sublet or transfer his duties or interest in this Agreement without the written consent of the other party.

13. SAMPLING OR TEST LOCATION

Client may be charged additional fees for costs associated with surveying of the site for the accurate horizontal and vertical locations of any tests. Field tests or boring locations described in **Thompson Engineering's** report or shown on sketches will be based upon information furnished by others or estimates made in the field by **Thompson Engineering's** representatives. Such dimensions, depths or elevations should be considered as approximations unless otherwise stated. If the Client specifies a test or boring location, **Thompson Engineering** reserves the right to deviate a reasonable distance from the location specified. **Thompson Engineering** reserves the right to terminate its obligation to perform any Work if site conditions prevent drilling at or near the designated boring locations and these conditions were not revealed to **Thompson Engineering** prior to agreeing to perform the Work. If, in order to complete the borings to their designated depths, a re-drilling is necessitated by encountering impenetrable subsurface objects, this

Single Project Agreement General Terms and Conditions

will be charged to Client at the appropriate rates contained in **Thompson Engineering's** standard fee schedule.

14. RIGHT TO STOP WORK

Stopping the construction work is an extreme action which should be taken only by the Client after giving serious consideration to the effects of such an order. Under no circumstances will **Thompson Engineering** take the initiative in issuing this order. **Thompson Engineering** will only provide data and recommendations.

15. INTENTIONALLY DELETED

16. FIELD MONITORING AND TESTING

If the Scope of Work in Exhibit A includes construction field monitoring and/or testing, **Thompson Engineering** shall visit the project site at intervals appropriate to the stage of construction or as agreed to in writing by the Client and **Thompson Engineering**, in order to observe the progress and quality of the work completed by the contractor. Such visits and observations are not intended to be an exhaustive check or a detailed inspection of the contractor's work but rather are to allow **Thompson Engineering** to become generally familiar with the work in progress and to determine in general if the work is proceeding in accordance with the contract documents.

Thompson Engineering shall not supervise, direct or have control over the Client's work nor have any responsibility for the construction means, methods, techniques, sequences or procedures selected by the contractor nor for the contractor's safety precautions or programs in connection with the work. These rights and responsibilities are solely those of the contractor in accordance with the contract documents. **Thompson Engineering** shall not be responsible for any acts or omissions of the contractor, subcontractor, and any entity performing any portion of the work, or any agents or employees of any of them. **Thompson Engineering** does not guarantee the performance of the contractor and shall not be responsible for the contractor's failure to perform its work in accordance with the contract documents or any applicable laws, codes, rules or regulations.

17. SAFETY

Should **Thompson Engineering** provide observations or monitoring services at the job site during construction, Client agrees that, in accordance with the generally accepted construction practice, the contractor will be solely and completely responsible for working conditions on the job site, including the safety of all persons and property during the performance of the work, and for compliance with OSHA regulations. These requirements will apply continuously and will not be limited to normal working hours. Any monitoring of the contractor's procedures conducted by **Thompson Engineering** does not include review of the adequacy of the contractor's safety measures in, on, adjacent to, or near the construction site.

18. HAZARDOUS SUBSTANCES

Client agrees to advise **Thompson Engineering**, prior to beginning work, of any hazardous substance on or near the site. In the event that test samples obtained during our work contain substances hazardous to health, safety or the environment, these samples remain the property of the Client. Likewise, any equipment contaminated as

a result of the Work which cannot be reasonably decontaminated shall become the property and responsibility of the Client. Client agrees to pay transportation costs for samples and equipment and the fair market value of contaminated equipment.

19. REUSE OF DOCUMENTS AND ELECTRONIC MEDIA

Any and all documents and electronic media including Drawings, CADD files and Specifications prepared or furnished by **Thompson Engineering** (and **Thompson Engineering's** independent professional associates and consultants) pursuant to this Agreement are instruments of service of the Project and **Thompson Engineering** shall retain an ownership and property interest therein whether or not the Project is completed. Information contained in signed or sealed drawings should be deemed to be correct and superior to electronic information. Client may make and retain copies for information and reference in connection with use and occupancy of the Project by Client and others; however, such documents are not intended or represented to be suitable for reuse by Client or others on extensions of the Project or on any other project. Any reuse without written authorization or adaptation by **Thompson Engineering** for the specific purpose intended will be at Client's sole risk and without liability or legal exposure to **Thompson Engineering**, or to **Thompson Engineering's** subsidiaries, holding company, independent professional associates or consultants, and Client shall indemnify and hold harmless **Thompson Engineering** and **Thompson Engineering's** subsidiaries, holding company, independent professional associates and consultants from any and all claims (third party or otherwise), damages, losses and expenses, including attorney's fees, arising out of or resulting therefrom.

20. GOVERNING LAW

This agreement shall be governed by the laws of the State of Alabama and the United States.

21. ENTIRE AGREEMENT

This Agreement represents the entire agreement between Client and **Thompson Engineering** and supersedes all prior negotiations, representations and agreements, either oral or written. No modification to the terms hereof shall be made unless agreed to in writing by both parties.

22. SEVERABILITY

In the event any provision, or any portion of any provisions of this Agreement is held invalid, the other provisions of this Agreement and the remaining portion of said provision, shall not be affected thereby and shall continue in full force and effect.

EXHIBIT A
DETAILED DESCRIPTION OF SCOPE OF SERVICES AND ASSOCIATED FEES AND COSTS

SCOPE OF SERVICES

Generally, the scope of services shall consist of providing construction administration and quality assurance services, to include assistance with the construction bidding, construction engineering and inspection, construction materials testing and NPDES permitting for the project.

Bidding Services

TEI shall perform services as follows:

- Assist the City in preparing contract documents for a complete bid package for the project to be let by the City
- Assist the City with the bidding process and selection of a contractor

NPDES Permitting Assistance

A NPDES notice of intent (NOI) will be required to be filed with the Alabama Department of Environmental Management (ADEM) prior to construction. TEI will assist the City in preparing and applying for the appropriate ADEM construction stormwater permit. The fees included in this agreement do not include the required ADEM permit application fees and the City will be responsible for paying these fees separately.

Construction Engineering and Inspection (CE&I) Services

TEI shall perform construction engineering and inspection services as follows:

- Assist the City in hosting a pre-construction conference with the contractor, geotechnical engineering sub-consultants and any affected utility companies
- Perform field monitoring and testing, as defined in the single project agreement general terms and conditions
- Certify monthly pay estimates for work completed by the contractor
- Assist the City in holding a final inspection
- Prepare and provide final estimate and close-out documentation to the City, including “As Built” plans

Project	Estimated Working Days	Estimated Construction Cost	Estimated CE&I Fee	%
Base Bid Only	90	\$ 570,500.00	\$ 50,013.54	8.8
Base Bid + Additive	120	\$ 879,400.00	\$ 66,684.72	7.6

Please note that our technician’s time and mileage will begin upon leaving our office in Mobile, AL or from the technician’s home, whichever is less and will end upon return. Note that TEI will make a concentrated effort to utilize personnel that are located as closely to the project as practical.

Construction Materials Testing (CMT) Services

TEI shall perform or secure a geotechnical engineering and materials testing sub-consultant to perform services as follows:

- Assist the City in reviewing contractor submittals for construction materials
- Perform evaluation and testing for quality control on soils and construction materials to ensure the project is constructed in accordance with the plans and specifications

EXHIBIT A
DETAILED DESCRIPTION OF SCOPE OF SERVICES AND ASSOCIATED FEES AND COSTS

COMPENSATION

TEI will provide the professional services described above at the fees as summarized below. Note that this is an estimated fee based on the number of working days. In the event that the number of working days is decreased or increased, our fee would be affected accordingly. We are proposing to perform this work on a cost plus basis, and we will utilize the same billing process that we have proposed on HRRR-0219(250).

Additional services desired by the City that are not stated herein or attached hereto shall entitle TEI to mutually-agreed upon additional compensation and will not be undertaken without prior approval from the City.

Base Bid Only

Professional Services	Sub-Totals
Bidding Services (lump sum)	\$ 4,800.00
NPDES Permitting Assistance (lump sum)	\$ 2,400.00
CE&I Services	\$ 50,013.54

Additional Services	Sub-Totals
CMT Services	\$ 17,200.00

TOTAL ESTIMATED FEE FOR BASED BID ONLY = \$ 74,413.54

Additive Alternate (as needed)

Professional Services	Sub-Totals
Additional CE&I Services for Additive Alternate No. 1 (as needed)	\$ 16,671.18

Additional Services	Sub-Totals
Additional CMT Services for Additive Alternate No. 1 (as needed)	\$ 9,300.00

ADDITIONAL ESTIMATED FEE (AS NEEDED) = \$ 25,971.18

TOTAL ESTIMATED FEES (AS NEEDED) = \$100,384.72
