A Resolution Approving the Wolf Creek Shoreline Stabilization Capital Project

The Nature Parks Department requests council approval to allocate the funds and construct the Wolf Creek Park Shoreline Stabilization project. The project includes re-constructing the existing bulkhead area, design, permitting and construction of a pocket beach south of the fishing pier and repairing the kayak ramp. The original estimate was for \$35,000. Due to enhanced damage of the bulkhead and collapse of the kayak ramp, the new quote was \$70,000. This is a very specialized marine construction and design so we would like to select Martin Marine Engineering and Construction to perform the engineering, permitting and construction.
