A Resolution Approving the Purchase of Portable LED lights for FFD and Other City Uses

Description of Topic: (who, what, where, when, why and how much)

The Foley Fire Department has identified various needs for additional portable lighting to be used at City functions, events, and emergency scenes. With new LED lighting technology, this need can be met with purchasing 3 portable LED balloon lights on stands operated by small inverter generators. We will need an additional generator to add to our current inventory of generators to insure that we have adequate resources. Although this is an unbudgeted purchase request, we have \$8636.82 remaining in our capital purchases account to transfer to our small tools account due to savings from our purchase of hydraulic rescue tools. The total cost of the lights and generator is \$9625, so we are requesting and additional \$988.18 in unbudgeted funds in our small tools account.

Budgetary Impact:
